

Scottish Association for Marine Science (SAMS)
NOTICE TO MARINERS
Scientific moorings – Clyde Sea Sill MPA

Mariners are advised that Scottish Association for Marine Science (SAMS) has deployed 2 scientific moorings in Clyde Sea Sill MPA. Equipment will be picked up no later than 31.04.2019. Moorings are fully submerged with no surface markers, mooring height is less than 6 m (see picture below). For more info contact: monika.kosecka@sams.ac.uk

Deployment location map and coordinate

Latitude	Longitude	Depth (m)
55.186253	-5.5743	90 - 98
55.002616	-5.331001	80 - 85

The project:

Passive acoustic recorders were deployed in order to record cod sounds. Based on obtained data SAMS will try to develop automatic acoustic detectors, to help with identifying cod presence in marine environment.
